

Show and Tell agenda

Digital holds a Show & Tell session every second Friday at 10AM. All are welcome to attend.

Team members self-nominate (or are invited) to demo work in progress, work that's recently been shipped or readouts from research that they want feedback on or that they believe the rest of the team want to know more about.

There can be up to 5 presentations per session. Each presentation will be up to 5 mins, followed by up to 5 mins of questions and then a supportive round of applause. We welcome guest presentations and aim to have one at each session (to be included in the total 5).

The running order (agenda) for each Show & Tell should be drawn up at least a day in advance of the session.

There is a [Group Manager group](#) for managing comms and calendar invitations.

Rules for presentation slides

1. Don't over do it. The simpler the better. And remember when choosing fonts and colours that our projectors and screens aren't the best.
2. Upload them as, or share with, bathweb in Google Drive
We should only need to log in to Google Drive once at the beginning of the session. This will eliminate the time and hassle of switching to different accounts for each speaker.
3. Attach or link them to this page, from the correct agenda.

Agenda for 3rd November 2017 (room tbd)

- Gecko forms (Graham)

Agenda for 6th October 2017 (8W 2.20)
