Help (contextual)

Dock block

Activities

Prior to exploring the **Activities and Resources** below, you may wish to consider how to use the [Activity Chooser](#).

Assignment - Used to submit files for marking. Integrated with the Turnitin plagiarism detection service.

Book - Makes it easy to create multi-page resources with a book-like format.

Chat - A synchronous chat tool useful for small group work.

Choice - Similar to a poll. Often used to enable students to select seminar groups etc.

Database - Enables data to be input (by either Teachers or Students) and stored in a searchable format.

Forum - An asynchronous discussion tool.

Glossary - List of definitions – can be populated by either Teacher or Students.

Lesson - Produces structured yet flexible learning paths.

Quiz - Online quiz tool that can automatically provide marks and feedback to the student.

SCORM package - Enables SCORM packages to be uploaded to a Moodle course.

Wiki - A series of web pages that can be edited by anyone. Useful for group projects.

Workshop - Facilitates peer and self assessment.

Please note that where the is displayed, you will be taken to the [Moodle Docs](#) website for further information.
