

Troubleshooting

- Broken link report
- Creating links
- Changing an existing link
- Unable to change properties of a folder
- Can't edit a page
- Can't change permissions on a page
- Locked file with a tilde ~
- Can't see a folder or file even though it is published
- Can't see the new version of a page or news item
- My links have gone all blue and underlined
- Problems with using Internet Explorer

Let us know if you have an issue not covered by the list above and would like to see a tutorial for it.

Unable to render {include} The included page could not be found.
