

Testing CSS changes

This page contains the list of pages we use for testing when making changes to the global site CSS.

The pages are a mix of the most visited pages alongside those that are the most complex.

Pages we test against

Name	URL
Undergrad landing page	/study/ug/index.html
Semester dates	/about/organisation/semester-dates/index.html
Departments landing page	/departments/index.html
Computing Services landing page	/bucs/index.html
International landing page	/study/international/
International country page	/study/international/country/china/index.html
Person Finder	/contact/?search=advanced
Search results page	/search?query=digital&submit=btnG&collection=website
