

Linking to external websites

To insert URLs (or **links**) into your Moodle course,

- From the relevant course, locate the [Administration block](#) and then [Turn editing on](#)
- Within the relevant topic, click **Add an activity or resource** to display the [Activity Chooser](#)
- From within the Resources section, select **URL** and click Add (as below)

The page that opens contains a number of settings. For the purposes of these instructions, the common settings will be covered.

- Enter a **Name** for the URL. This is the text that will be displayed to students within the course area
- Insert an **External URL** in the relevant field. For example, to link to Google, the URL would be <http://www.google.com>
- Within the Appearing menu, select one of the **Display** types as described below.
 - Automatic** - The best display option for the URL is selected automatically
 - Embed** - The URL is displayed within the page below the navigation bar together with the URL description and any blocks
 - Open** - Only the URL is displayed in the browser window
 - In pop-up** - The URL is displayed in a new browser window without menus or an address bar
- Scroll down the page and press one of the **Save** buttons.
